# WEBSITE STATS REPORT

Using Google Analytics, one of the most advanced tools available, Laura Bowly Design can provide you with intuitive reports to help you understand how your site is working.

## Features

- Easy to understand PDF report emailed to you automatically
- Report contains valuable information about how people are using your website:

How many total visits your site attracted

How many individual pageviews and new visits

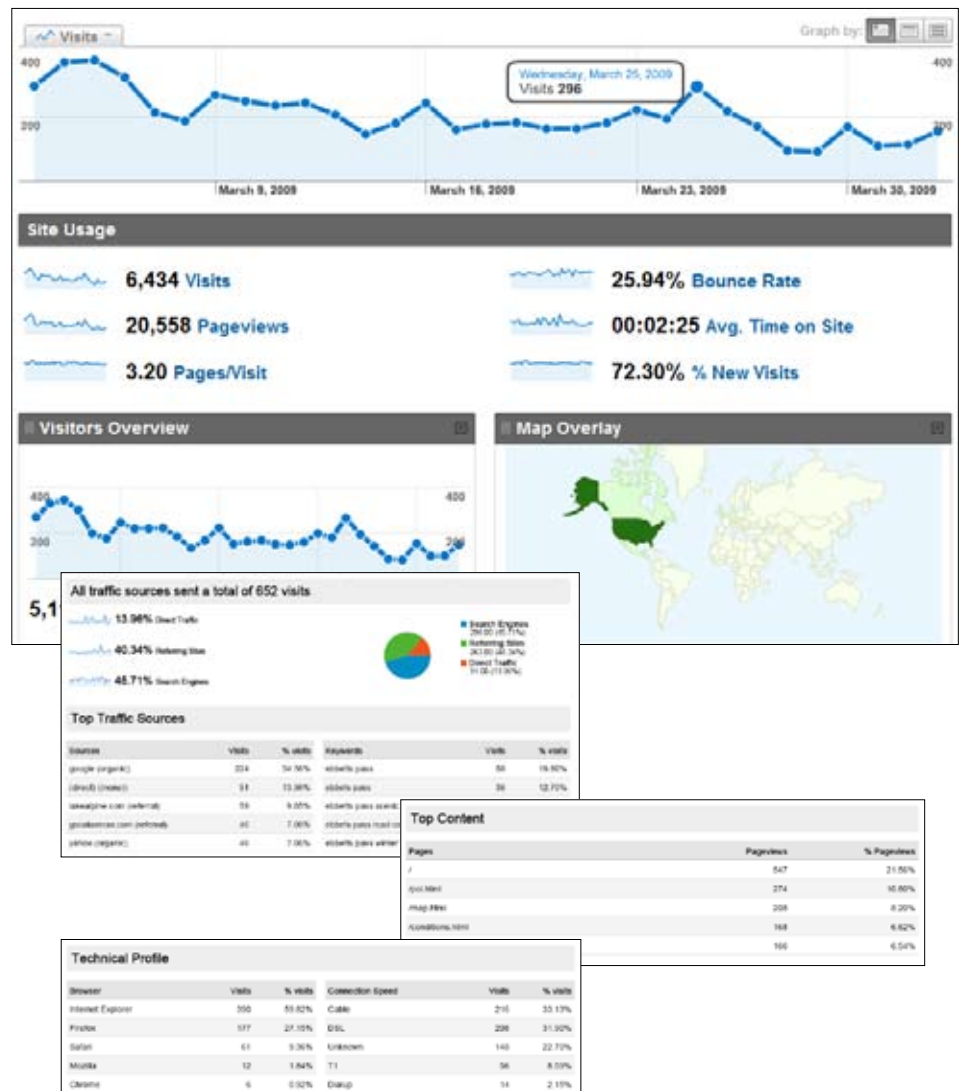

What were the primary pages people viewed

How long people stayed at your site

Where did your visitors come from

What search phrases led them to you

What browser visitors used to view your site
